Number from Ministry of Health: 94-6385/24.11.2020

**To the attention of the Deputy Minister of Health, Bulgaria
Svetlana Yordanova**

Dear Deputy Minister of Health,

We have conducted scientific studies with the method of Prof. Christos Drossinakis with electromagnetic fields in the nanomedicine area. With effects of electromagnetic fields over colloidal nano silver are achieved greater results over bacteria and viruses. The research with Prof. Christos Drossinakis is in a dynamic regime of electromagnetic fields with model bio systems. In the research have taken part Ass. Prof. Georgi Gluhchev, Prof. Reneta Toshkova, Ass. Prof. Elisaveta Zvetkova from Bulgarian Academy of Sciences, Nedyalka Valcheva PhD from Trakia University, Stara Zagora. Prof. Toshkova is an author of a Graffi tumor studying method with hamsters. The examinations with Prof. Drossinakis are subject to scientific publications, participation in conferences and congresses – Frankfurt, Vienna, Halkida, London, Seoul, Sofia etc.

With respect:

Prof. Ignat Ignatov
